## Administrative history / Biographical sketch

---

### Note

Arthur Forer, scientist and professor, was born in Trenton, New Jersey. He attended the Massachusetts Institute of Technology in Cambridge, Massachusetts, graduating in 1957 with a B.Sc. in biology. He completed a PhD in molecular biology in 1964 at Dartmouth Medical School in Hanover, New Hampshire. His PhD dissertation is entitled "Evidence for two spindle fiber components: a study of chromosome movement in living crane fly (*Nephrotoma suturalis*) spermatocytes, using polarization microscopy and ultraviolet microbeam".

Forer's career as a biologist began as an American Cancer Society research fellow at the Carlsberg Foundation Biological Institute in Copenhagen, Denmark, a position he held from 1964 to 1966. He then took a position as a research fellow in the Department of Zoology at the University of Cambridge between 1966 and 1967 before serving as the Helen Hay Whitney Foundation research fellow in the same department from 1967 to 1969. Forer returned to the United States between 1969 and 1970 to work again as a Helen Hay Whitney Foundation research fellow and Hargitt research fellow at the Department of Zoology at Duke University in Durham, North Carolina. Forer's teaching career began in earnest in 1970, when he took a lecturer position at Odense University in Denmark, a position he held until 1972. He arrived in Canada in 1972 and began his long career as a professor in the Department of Biology at York University, first as an associate professor (1972-1975), professor (1975-2001) and then professor emeritus (2001- ).

Forer has been a member of the American Society for Cell Biology and a fellow of the Royal Society of Canada.

## Scope and content

---

Fonds consists of records pertaining to Forer's work as a scientist and as a professor in the Department of Biology at York University, including course materials, lecture notes, grant applications, correspondence, photographs and drawings. Also included in the fonds are video recordings of Forer lecturing on cell division for five episodes of CTV's "University of the Air: textbook to real life" program, recorded in 1974 and aired on television in 1978.

### Series: F0165-S00832 - Teaching files

Title: Teaching files

ID: F0165-S00832

Date: 1974-2006 (date of creation)

Scope and content:

Series consists of files pertaining to courses taught by Forer at York University's Department of Biology. These files include course materials such as syllabi, outlines, reading lists, handouts, examinations and tests, as well as correspondence and Forer's lecture notes.

Physical description: 0.96 m of textual records

Arrangement:

Forer's original file arrangement structure has been maintained.

Restrictions on access:

Access to some files in this series is restricted. See file-level descriptions for further information. Files containing confidential student information have been closed subject to FIPPA regulations. Items in this series pertaining to student marks have been removed from files and destroyed.

Access points:

- Textual record (documentary form)
- 

### File: F0165-S00832-2016-056/001(01) - BIO 2020 : winter/spring 1990 : handouts/exams/marks

Title: BIO 2020 : winter/spring 1990 : handouts/exams/marks

ID: F0165-S00832-2016-056/001(01)

Date: 1990 (date of creation)

Scope and content:

File consists of materials pertaining to this course taught by Forer, including the final examination, a make-up examination, a mid-term test, test result data and course handouts. Also included in the file is memoranda exchanged with M.B. Fenton, the Department of Biology chair concerning student requests, and a memorandum regarding the status of Biology Department course budgets.

Date: 1981 (date of creation)

Scope and content:

File pertains to the publication of a two-part article co-written by Peggy J. Sillers and Forer, entitled "Analysis of chromosome movement in crane fly spermatocytes by ultraviolet microbeam irradiation of individual chromosomal spindle fibres", in the Canadian Journal of Biochemistry. Records in this file are correspondence, referees' reports, notes, and an addendum and erratum submitted to the journal.
